

ARBORIST PRODUCT GUIDE

[Sales](#) [Service](#) [Calibration](#) [Hire](#)

HTC has been creating specialised tooling solutions for New Zealand industry for over 40 years.

Specialists in 700 bar hydraulics, HTC offers more than 35 years of experience in the supply and application of high pressure hydraulic equipment. HTC sources and supplies solution-based tools and equipment for electrical contracting, railway, construction, engineering and drainage industries.

With branches in Auckland and Christchurch, HTC offers equipment sales, service, repair, calibration and tool hire.

“We are passionate about making the hard jobs easier for our customers. Call us today to see how we can help with your next project.”

Robb Huskinson
Owner/Director

Suppliers

HTC sources from world leading manufacturers with respected brands and proven products. We evaluate manufacturers by visiting their factories and thoroughly testing their tools before we offer products to our customers for sale and hire. HTC suppliers include Jameson line clearing tools, CHANCE lineman tools, Greenlee, Portable Winch, Durapac, Tohnichi torque equipment and many more. Manufacturers' warranties are backed in our own workshops, so you can be confident of ongoing servicing and support for your equipment.

Bolting

For maintenance of equipment

Battery Torque Wrenches

The LITHIUM SERIES II electric torque tool is the next revolution in bolting technology redesigned from the ground up with expanded functionality, greater durability, and intuitive usability,

Hydraulic Torque Wrenches

Hydraulic torque wrench, the efficient way of producing an amazing amount of torque yet compact enough to fit into the tightest of areas.

Manual Torque Wrenches

Durapac range of dual scale manual torque wrenches ideal for numerous industrial applications.

Cable Installation

Perimeter Wires Installation Machine

Used to install cables underground for applications like Landscaping, Outdoor lighting, Dog control, and Robotic lawn mowers.

The 600MH cable-laying machine offers the ruggedness, durability and portability necessary to professionals.

- Originally designed to optimize the work of robot mower installers.
- The new optional install kit for wire of up to 10 mm now enables installing wire up to 10 mm in diameter.
- It is then possible to also use the 600MH machine for burying wire for invisible fences, for outdoor lighting systems, for portal motorization, for videophones, for surveillance cameras, for high-speed Internet or cable TV connections, and more!
- To learn more, watch the video below and read the article here: Perimeter Wire Machine

New Compositelock Poles with improved dielectric strength and zero play between sections unlike traditional click together systems.

Maximum durability, strength, UV and impact resistance

COMPOSITLOCK™

JAMESON

Features:

- Increased Safety when working around energized lines
- Strong, Secure connections between pole sections
- Smooth ferrule profile
- Foam core prevents debris and moisture build up inside pole and adds extra hoop strength and rigidity
- High visibility safety yellow color
- Preferred for aerial construction & line clearance
- JEC pole meets the requirements of OSHA Standard 1910.269: Individually tested to 100KV per foot for five minutes

Hydraulic Tools

Generator / Welders - that can run of a trucks PTO

HW 220–HW 400 are professional DC hydraulic welders with 3-phase generators that run on the hydraulic circuit of excavators, trucks, mobile workshops, and other compatible machines, delivering quiet operation, low maintenance, and improved efficiency.

Handheld Hydraulic Saw

Pistol grip with safety trigger lock and insulated handle for added safety. High-torque gear motor and easy change, open/close hydraulic system. Patented pool system eliminates heat generation in the saw for safer operation.

Hydraulic Long Reach Chainsaws

Non-conductive fiberglass pole - approved for live line work (ACS-70, ACS-80). High-torque gear motor and easy change. Open/close hydraulic system. Patented spool system eliminates heat generation in the saw for safer operation.

Hydraulic Lopper / Pruner

Cutting head rotates 360°, can be locked in position. Non-conductive, insulated handle. 2" cutting capacity. 74" and 87" models. Lightweight – less than 6 lbs. Open/closed hydraulic system

Hydraulic Tools

Hydro Box Setup

This innovative, self contained power pack takes oil from any vehicles PTO and cools, regulates, and controls the oil flow and pressure. This ensures that tools receive clean oil and are protected from pressure spikes that can damage them.

Non Conductive Hoses

It features certified non-conductive orange rubber with a double rayon braid, offering durability and safety. It comes with 3/8" NPTF connections on both ends and a 10 mm internal diameter (ID). Designed for ease of use, the hose is extremely flexible and resistant to kinking.

Pole Tamper

At HTC Ltd, we supply the Reliable Equipment Hydraulic Pole Tampers, engineered for high performance and low maintenance across New Zealand construction and utility worksites.

Self contained pumps. Petrol, Diesel and Electric

Make one sentence: Discover a wide selection of high-quality hydraulic pumps for sale at HTC. Our range of hydraulic pumps offer superior performance, durability, and reliability to meet your diverse industrial needs.

Pulling & Lifting

Capstan Winches

Petrol, Battery, Electric - Used for lifting, pulling and tensioning

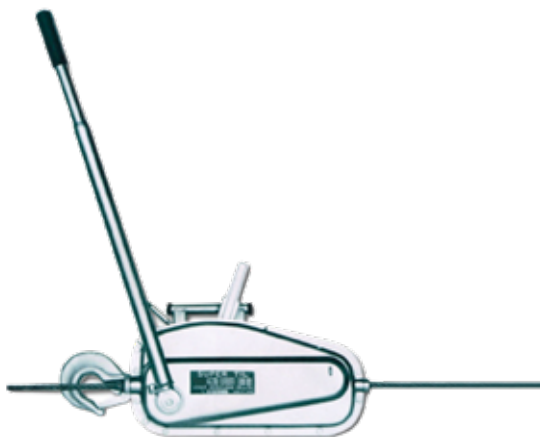

YA/C21 Chain and Lever Blocks

Tirfors

Hand-powered winches

Accessories, Sheaves, Carabiners, Rope, Nose Cone, Bags & Cases

Calibration, Testing, and Inspection Services

Now, more than ever, keeping your people safe means keeping your equipment in working order and compliant with the current standards. The experienced team at HTC is here to help.

- Tests performed to comply with all relevant standards by experienced staff
- Presale and cyclic testing available
- All tests are traceable with secure certificate storage

Keep your
people safe!

Talk with the HTC
Team today about
your testing needs.

“The speed and
efficiency of getting our
equipment back tested and
certified was second to none.”

HTC SERVICE

HTC's in-house specialist fitters are trained to provide fast, reliable and economic repairs and scheduled maintenance for your hydraulic tools and equipment.

Common parts are stocked for most products we hire and sell, which means you get your gear back quicker.

Worried about keeping your current projects progressing while your gear is being serviced? HTC offers discount hire rates when your own tools and equipment are being serviced by our specialist fitters.

HTC also supply seal kits, hoses, couplers, gauges, hydraulic fluids, coolants, cutters, punches, compression dies and a large range of other spares and accessories.

HTC specialist fitter's skills go beyond repairs and scheduled maintenance they can also create bespoke engineering solutions for your projects.

Nationwide Calibration & Testing for Tools, Equipment & PPE

HTC is New Zealand's trusted partner for professional calibration and certification services, helping industries maintain safety, accuracy, and compliance across a wide range of tools and equipment. Whether you need a torque wrench certified, a force gauge recalibrated, or your high-voltage PPE tested, our technicians deliver results you can rely on — backed by traceable standards and decades of experience.

Explore each service below to see how HTC can help keep your tools accurate, your records up-to-date, and your teams working safely

SUPPLYING SOLUTIONS TO THE NEW ZEALAND INDUSTRY FOR OVER 40 YEARS

Torque Calibration

From manual wrenches to digital and hydraulic torque tools, we ensure precise fastening every time.

Force Calibration

Accurate measurement of tension and compression with calibrated dynamometers, gauges, and load cells.

Pressure & Vacuum

Reliable calibration of gauges, transducers, and vacuum sensors across a wide pressure range.

Gas Detection & Environmental Meters

Calibration of single and multi-gas detectors, UV light meters, temperature and humidity devices.

Weighing Equipment Calibration

Precision checks for platform scales, crane scales, and portable weighing systems.

PPE & Safety Gear Inspections

Certified inspection and tagging for harnesses, slings, shackles, and lifting gear.

Metrology & Specialty Instruments

If it measures, detects, or protects — we probably calibrate it.

Electrical Safety Calibration

Dielectric testing of gloves, mats, poles, and other liveline PPE to keep workers protected.

Dave B.

The speed and efficiency of getting our equipment back tested and certified was second to none.

Grant C.

We had to design a Test Rig using Hydraulic Gear, HTC advised us what items we needed and supplied them and helped with us to set everything up on the Rig

Steve P.

HTC really came through on a job for us. Very helpful and the guys know their stuff. Appreciate it!

Chris M.

Stocking reliable brands of trade equipment and competitive prices. Have never let us down with our orders

ErleV.

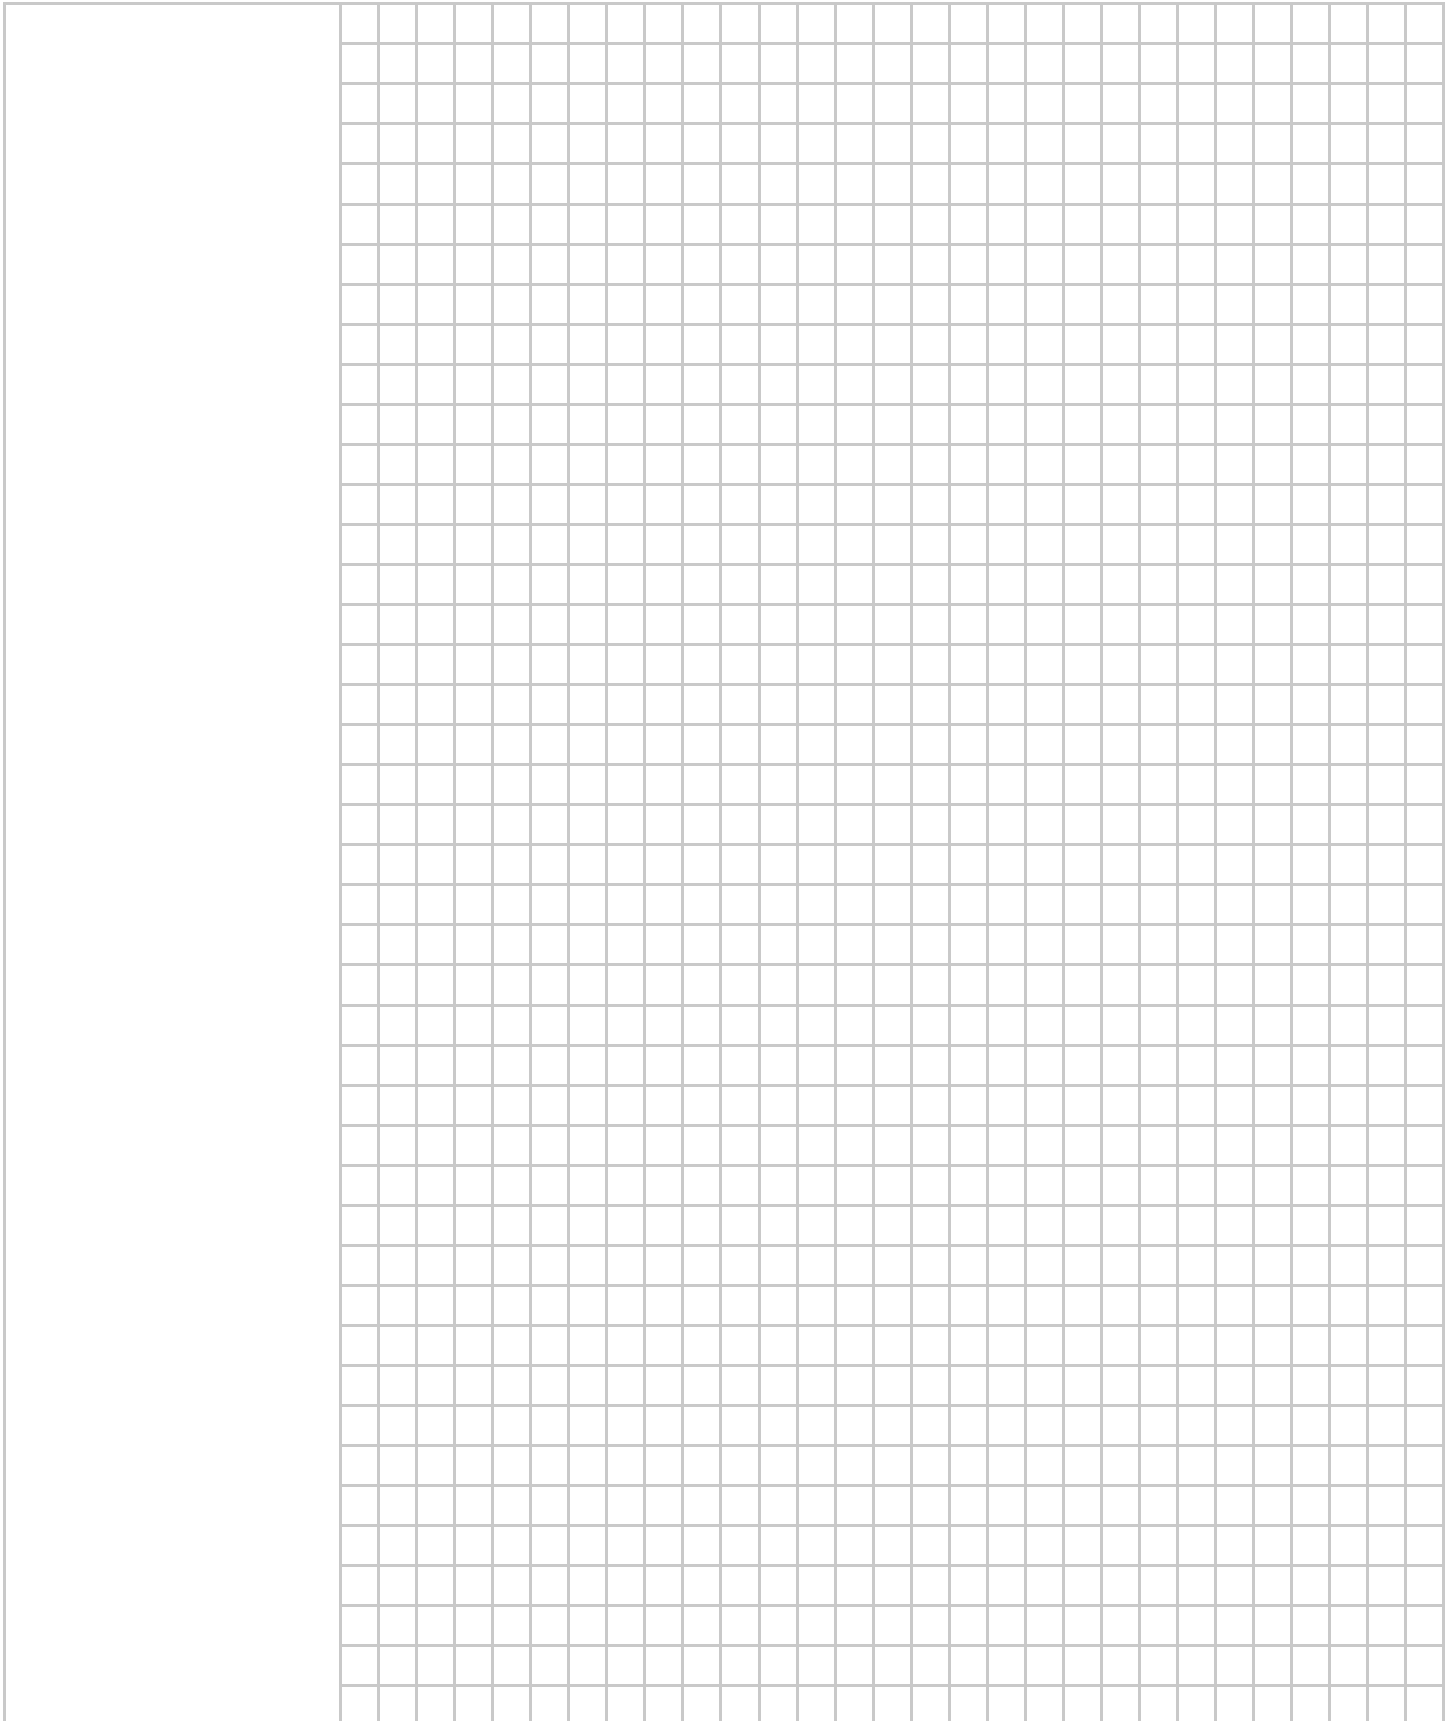

Always had good service, the crew in Christchurch go the extra mile when required and always happy to help out where possible.

Deon S.

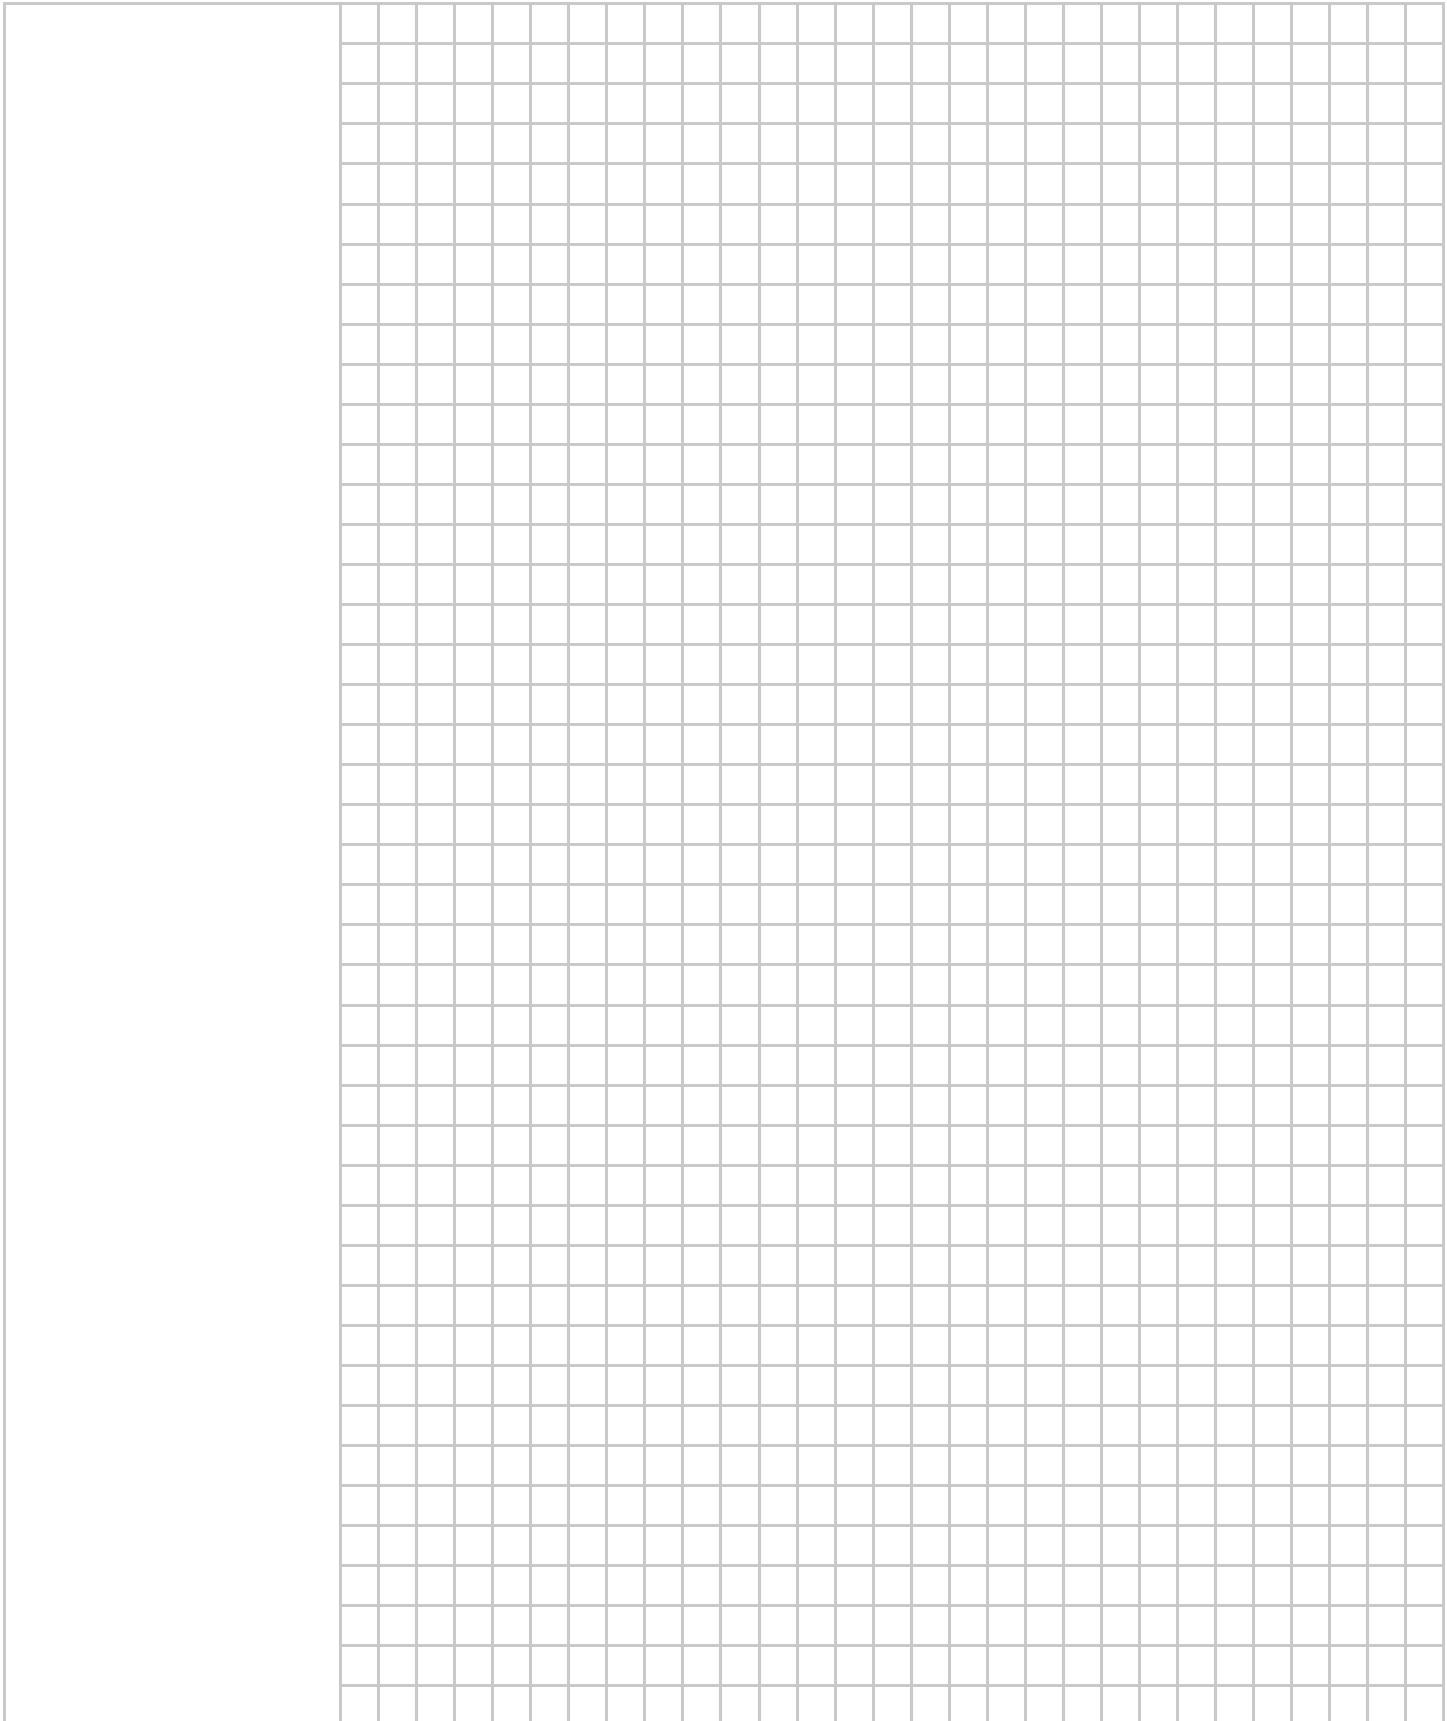

We have had great service from HTC during the year working on a large cable fault. HTC's assistance with hydraulic crimping tools has been exceptional.
