# COMFORT. DURABILITY. PROTECTION.

Youngstown Glove - unwavering in our commitment to superior craftsmanship and customer service. Every Youngstown glove goes through extensive testing - both in the field and in the laboratory. Our thorough testing, innovative designs and meticulous quality control ensure that Youngstown is truly #1 in durability.

## Arc Rated

The Arc Rated 14" Primary Leather Protector is ergonomically designed to fit perfectly over Class 1 through 4 rubber insulating gloves per ASTM F496/ASTM F696. We use premium cow grain along with an innovative glove pattern to create a leather protector with unrivaled fit and dexterity.

## Cut Resistant

The Cut Resistant General Utility is our top selling cut resistant work glove and another first-to-market Youngstown technology. We took our top selling General Utility Plus pattern and lined every inch of the glove with cut resistant, Kevlar® fiber.

## Flame Resistant

Made with an FR liner made with soft, cozy microfleece throughout the entire glove, Youngstown's FR Fleece Ground Glove is a winterized work glove that is flame resistant, cut and puncture resistant, and arc rated. The glove is designed to protect workers from a variety of hazards while also keeping them warm, dry and comfortable in moderate winter conditions.

# WE SERVICE WHAT WE SELL

**Let HTC's in-house experts transform your service experience.**

Trained for speed, reliability, and cost-effectiveness, our specialists handle repairs and scheduled maintenance for your hydraulic tools. We've got the basics in stock for most of our products, ensuring you'll be back in action in no time.

Worried about project delays during servicing? Enjoy discounted hire rates when our experts are fine-tuning your gear.

But that's not all—HTC is your one-stop shop for seal kits, hoses, couplers, gauges, hydraulic fluids, coolants, cutters, punches, compression dies, and a wide range of spares and accessories.

And here's the real difference-maker—our specialists don't just fix things. We go beyond, creating custom engineering solutions for your projects.

**HTC: Your project's ally in progress.**
