

"Makin' the Hard Jobs Easy"

DC-16W

DC-16W Rebar Cutter

- Lightweight - ideal on-site, unit only weighing 8 kg
- Fast - cuts high tensile bar in just 2.5 seconds, runs off a generator
- Economic - four cutting edges per block, each cable of 100s of cuts
- Compliant - no damage to rebar by heat transference from oxyacetylene torches
- Convenient - no need to buy grinding wheels or gas
- Safe - no sparks, flames or trailing hoses to snare equipment or feet
- Double insulated - protect yourself and your workers
- Back mounted handle - good for tight spots & very simple to use
- Steel box - keep your Diamond safe and organized in its own box
- 12 month warranty - backed by HTC's in house workshop
- Range of common spares - stocked for quick turnaround repairs

DC-16W Technical Data

- Cuts - 16mm(5/8") high tensile bar (650 N/mm²)
- Weighs - 8 kg
- Speed - Cuts in 2.5 seconds
- Voltage - 230 V
- Power output - 1050 W
- Dimensions (mm) - 460 x 270 x 115
- Cutting pressure - 13 tons
