## FRR var. sizes, Dispenser for Refill Reels of Rod

These Australia-made high quality rods will not soften in the heat and the polyethylene sheath has been UV stabilized. Each unit comes with a threaded male fitting and a removable eye on the outward end, plus a fixed eye on the inner end. Each dispenser stand has a drag brake for holding the rod during a fit-off with operation.

JK-XX, Joiner Kit

# **FRD5-80 FIBREGLASS REEL DISPENSER**

## **PHR-223M, Polycarbonate Hand Rods**

These 22mm polycarbonate rods 3metres long with brass fittings are adaptable with Telstra type rods. The new polycarbonate provides the rigidity required for long placements and the molecular flexibility to avoid splintering when squashed or kinked.

## **PHR-22GH, Grappling Hook and Loop Set for 22mm Hands Rods with Male Ends**

These grapping hooks fit the larger sizes of fibre rod and the PC hand rods. They are used when your conduit run is too long to rod from one end. Push from both ends and grab in the middle.

## **PHR-22C, Crank Handle**

The PHR-22C is the crank handle to ensure the rods stay together whilst thrusting and pulling the rods up the conduit.
