**ALSO AVAILABLE  
FOR SALE**

## ELECTRIC PIPE BENDERS

Accurate and powerful pipe bending machines able to bend large pipe diameters, as well as thin and delicate pipe - all with optimum and constant bending radii and without any pipe deformation.

Quick-release pins makes setup of these units easy and efficient, allowing you to easily switch between different rollers & formers if bending multiple sizes of pipe.

### FEATURES:

- Two models available for hire – up to Ø 42mm & Ø 54mm bending capacity
- Bending angle regulation
- Automatic return at end of stroke
- Wide range of formers and rollers available to cater for a variety of pipe sizes
