

Pipe Bender

- Cold operation
- Lightweight
- Easy angle control
- Manual, foot, and electric pumps are all available.
- All the sizes can bend up to 90 deg at a time.

■ Specification

Cylinder used	S1-255 (100kN × 255mm)
Compatible pipe	Carbon steel pipe for piping 1/2B – 2B
Approximate weigh	17.1 kg (AL-10 and S1-255)

■ Dimension and radius of curvature of the carbon steel pipe (gas pipe) for piping

Nominal diameter B	Nominal diameter A	Outside diameter (mm)	Thickness (mm)	Radius of curvature R
1/2	15	21.7	2.8	89.5
3/4	20	27.2	2.8	100.5
1	25	34	3.2	129.0
1-1/4	32	42.7	3.5	162.5
1-1/2	40	48.6	3.5	185.7
2	50	60.5	3.8	211.8
